MEMORANDUM

TO:

Naval Station Treasure Island File

FROM:

David Rist Remedial Project Manager

Office of Military Facilities

DATE:

July 21, 2002

SUBJECT:

Final Post-Construction Summary Report, Time-Critical Removal Action

Treasure Island Homeless Development Initiative Buildings – Site 12

Naval Station Treasure Island

On July 21, 2002, DTSC staff accepted the Final Post-Construction Report, Time Critical Removal Action of Polychlorinated Biphenyl and Polycyclic Aromatic Hydrocarbon Contaminated Soil at Site 12 Treasure Island Homeless Development Initiative Buildings. The Navy and regulatory agencies agreed upon human health risk-based screening criteria for evaluating soil: 400 milligrams per kilogram lead, 1,000 micrograms per kilogram (µg/kg) PCBs (any isomer) and 620 µg/kg benzo(a)pyrene equivalency (BaPeq). The soil from a total of 91 bin loads with a combined weight of approximately 1,314 tons was profiled as Class II waste and hauled to Forward Landfill in Manteca.
